GARMENTS LOVE US!

APPENDIX C: ADM AUTOMATION

COUTURE NEVER
SLEEPS AND
NEITHER DO WE

Sudsies' ADM is an Automated Dry Cleaning Machine designed to provide a faster, more convenient experience for guests. Located in the Boca Raton, Fort Lauderdale, and Miami Design District boutiques, the ADM allows guests to bypass the counter for quick drop-offs and pickups. It's designed to work like an ATM for your garments, with text notifications sent when your items are ready for pickup.

This service makes it incredibly easy for guests in a hurry to manage their dry cleaning, offering no-wait, hassle-free access to Sudsies' premium services.

The MOSAIC segments (detailed on the next page) prioritize convenience, efficiency, and quick service making the ADM a highly attractive option for managing their garment care with minimal effort.
